

University Green Challenge

SDG 11: Sustainable Cities and Communities

**Sustainability app for
university students.**

Track actions. Build habits.

Earn rewards. **Create impact.**

Build a greener campus together.

Green Challenge

Problem & Solution

The Green Challenge app turns good intentions into **real impact**.

We make sustainable living easy and rewarding.

Students log eco-friendly actions and upload photo evidence.

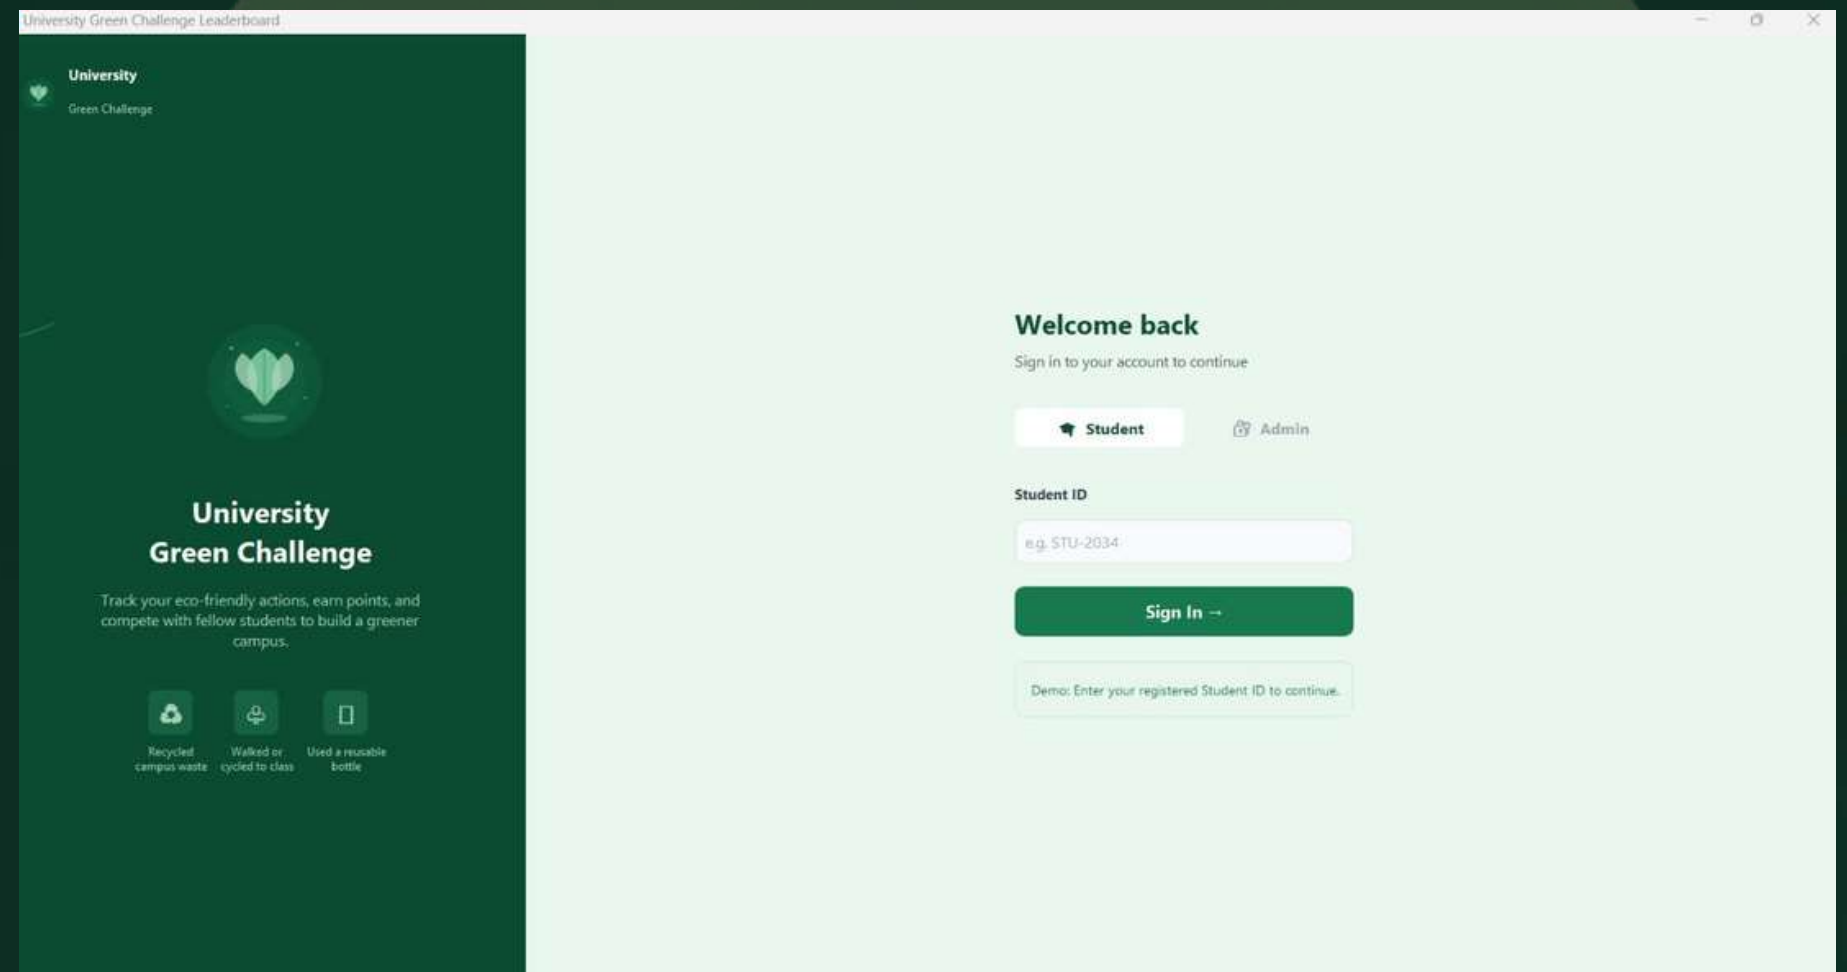

Small steps add up to a greener campus together.

Main Features

Everything students and admins need to drive a **greener campus**.

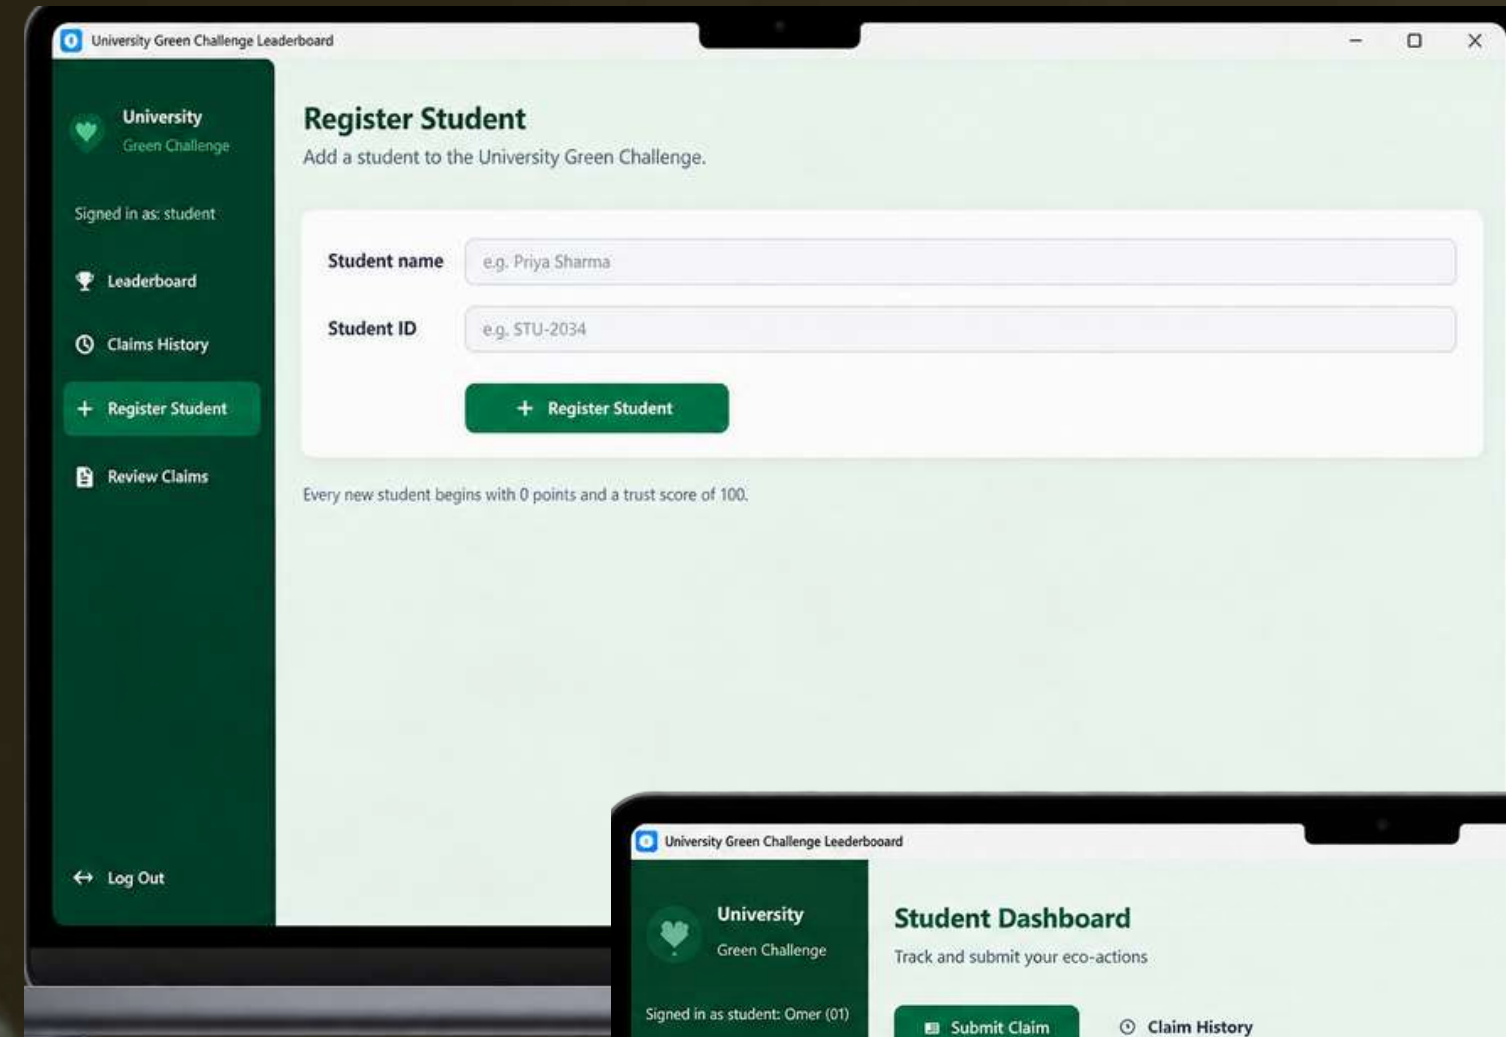

-  Register and log in with your university account
-  Submit eco-actions and earn recognition
-  Admins review and approve or reject claims
-  Track progress with leaderboards and claim history

Interface Design

Built with **CustomTkinter**
Green Figma-inspired design
Student and admin
dashboards
Clean, intuitive experience for
every user

System Structure

A clear, modular design keeps the Green Challenge app **simple, scalable, and easy to maintain.**

Validation & Security

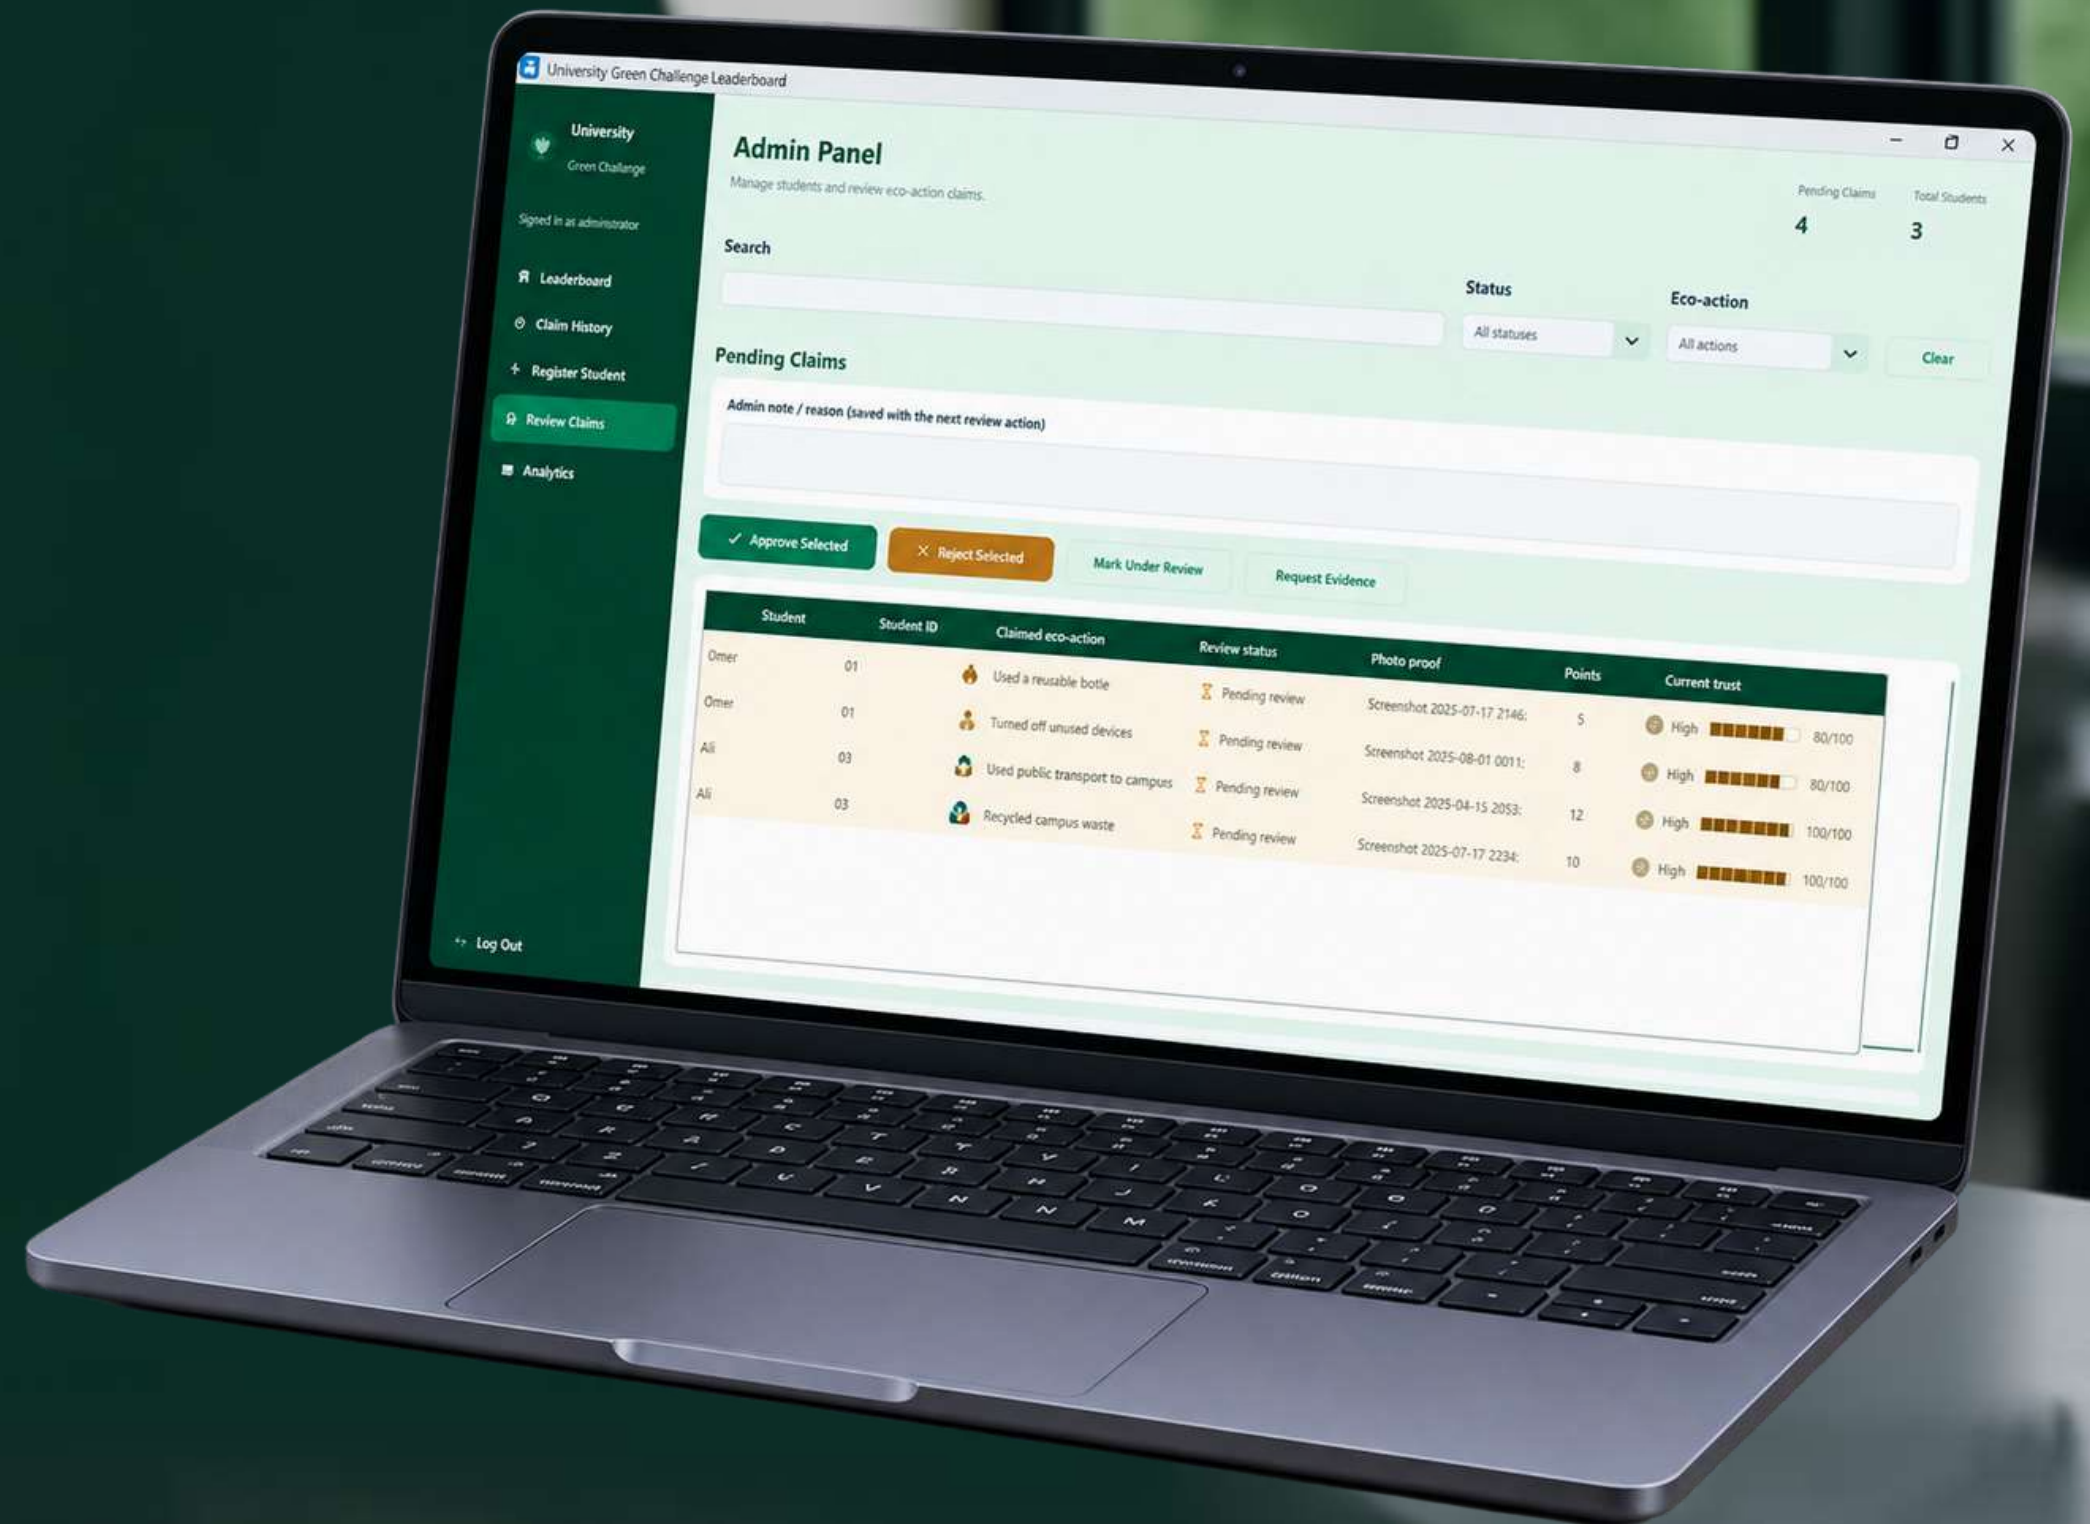

Every action is **checked** for legitimacy. Every claim is **protected**.

No duplicate student IDs

Only registered students submit claims

SHA-256 prevents reuse of the same evidence image

Secure review and approval by administrators

CONCLUSION

A greener campus together.

Build habits that protect our planet

Every action is recorded with fairness

Points and rankings keep students inspired

Small choices today, lasting change tomorrow
